

DESIGNED FOR THE MODER

NACTIVE PROFESSIONAL.

Utk

Unique Thermal Komfort is a temperature rating system to help you identify the jacket best suited for your needs.

Our unique UTK rating system is laboratory tested with specially designed mannequins equipped with heated thermal zones that mimic those found in humans.

The temperature rating is given to each jacket based on the thermal retention measured on the wearer.

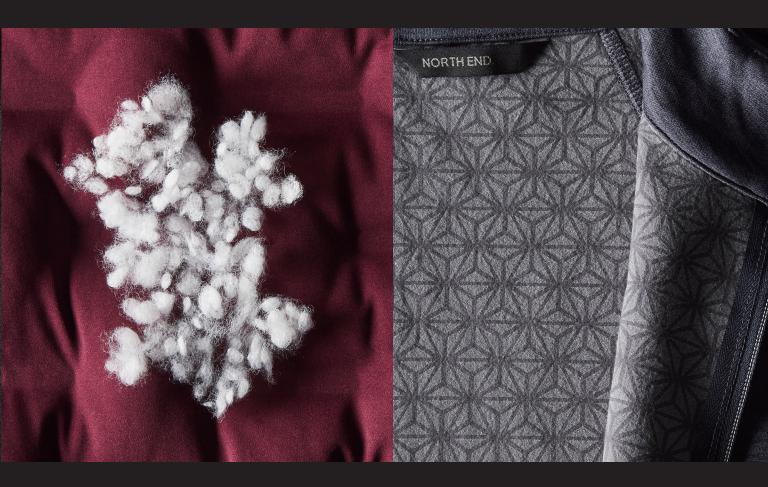

Hydr•pel™

UTK Hydropel™ technology adds superior water-repellent functionality to fabrics.

North End® utilizes UTK Hydropel™ technology in many ways, including seam-sealed waterproof garments for severe wet weather conditions, water-resistant fabrications with a built-in membrane for enhanced wind protection, or a simple DWR (durable water repellent) finish on a lightweight shell.

Whatever the level of weather protection needed, North End® has a solution.

UTK SubDown™ is a revolutionary insulation technique that mimics the thermal qualities of down, using an easy-care material that is more hypo-allergenic.

Traditional polyfill batting requires thick, uncomfortable layers to achieve maximum thermal protection from the cold.

UTK SubDownTM fibers mimic the physical dimensions of down and are blown into the garment channels just like down. The result is a lightweight lofty fill with more air pockets and the thermal retention of 600 fill down.

UTK SubDown™ is the ideal in "warmth without weight" insulated garments.

UTK CeramiTech $^{\text{TM}}$ is a state-of-the art technique that creates the ultimate in lightweight thermal protection.

The unique technology encapsulates ceramic powder in an emulsion that is then 'printed' on the underside of the fabric.

The UTK CeramiTech™ surface reacts with the body by absorbing & retaining body heat to keep the wearer warm.

UTK CeramiTech™ styles are great on their own or as a layering piece under a shell or puffer.

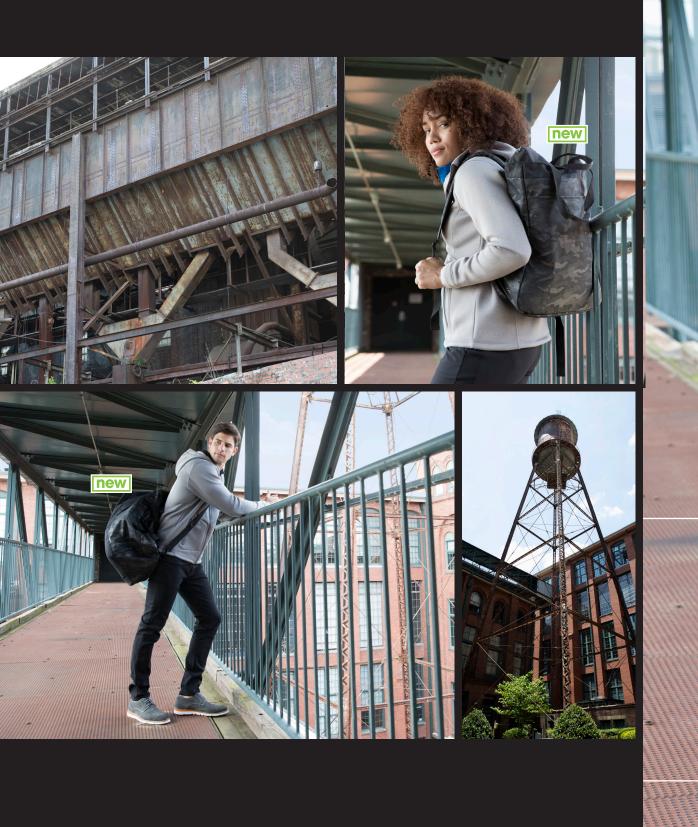

Loft Puffer Jacket Styles

- body: 4 oz., 100% polyester stretch jersey with 6,000 mm waterproof membrane
- lining: 100% polyester taffeta
- insulation: 20 gsm, 100% polyester UTK SubDown™ fill
- UTK SubDown[™] technology offers the thermal benefit of down with the ease of synthetic insulation
- UTK Hydropel[™] technology repels water without sacrificing comfort in wet conditions
- center front coil zipper with contrast teeth, autolock slider and rubber toggle
- right chest and lower front zippered pocket with contrast teeth and rubber toggle
- dyed-to-match stretch binding
- audio port access through inside left pocket
- · laminated stretch shell with welded puffer channelling creates cold-weather insulation with greater ease-of-movement

IL Rating Icons

Tested to 25, 50 or 75 industrial washes according to AATTC (American Association of Textile Chemists & Colorists) industry standards to help ensure longevity and durability.

Matchables

Mix and match these polos, shirts and jackets. They are all easy to coordinate for a polished look in the office and casual comfort for your team.

Fit Guide

Our SLIM FIT follows the shape of the body with enough room built in for ease of movement, keeping a sleek and updated look. A great choice for a more fashion-forward silhouette.

Our ACTIVE FIT is a true-to-size cut, that falls free from the body with a slight taper to reduce bulk in layering. The perfect combination of form and function.

primeplus styles are the foundation of any complete professional outfitting program. They come with our deepest inventory commitment so you can count on them being instock and delivered on-time - all the time!

prime are our premier styles designed for corporate outfitting. They are stocked with an increased inventory commitment and can be bought with confidence.
